Chris Carr, FISPE and Ray Burt, FISPE
- 3.30 p.m. Questions from the Floor
- 4.00 p.m. **Close**  
Alan Pugh, FISPE

*(All times are approximate)*

**Today's Seminar...**

Will look at some of the misconceptions that exist within the pool industry. For example, how will Part L of the Building Regulations, relating to the insulation of indoor pools, affect you?

There has been lots of talk about pool shell insulation recently. Alan Pugh will be presenting case studies of mistakes made on liner, mosaic and travertine finished pools.

Howard Gosling and Allen Wilson will look at some of the misconceptions they have encountered with regards to water testing and water treatment.

After lunch, there will be an excellent demonstration of a filter strip-down and re-build.

There will be ample opportunity for discussion and questions during the day.

***This Seminar could be of great benefit to Institute students and technicians.***

**ATTENDANCE CERTIFICATES**

If you would like an Attendance Certificate for this Seminar **please let us know when booking.** These will only be provided to delegates who have requested one at the time of their booking, who remain for the whole Seminar.
