

135TH ISPE ONE-DAY SEMINAR

27th November 2025

Black Country & Marches Institute of Technology,
Educational Services, Zoological Way, Dudley, DY1 4AL

Email info@ispe.co.uk for further information

10:00am	Registration - Networking & Meet the Exhibitors - Tea & Coffee on Arrival	
10:30am	Welcome - Bob Judd, FISPE - ISPE President	
10:35am	John Cheek, FISPE (Hydrospec) Pipework Installations	Explore best practices in pipework installations for swimming facilities-covering design, materials, and installation techniques to ensure efficiency, durability, safety and long-term operational reliability.
11:05am	Dave Kay (FT Leisure) FTMicron4® Microfiltration	A Presentation on FT Leisure's FTMicron4® microfiltration technology, what is it, how does it differ from traditional sand filtration and key benefits and advantages this technology brings to the commercial / municipal pool market for both new build and refurbishment projects.
11:25am	Mike Burnham, MISPE (Pool Logic) The Realities of Converting Domestic Pools to Commercial Use	More homeowners are exploring ways to turn their private pools into commercial ventures – but this trend comes with major technical, legal, and safety implications. This session unpacks the realities of domestic-to-commercial pool conversions, covering design upgrades, compliance requirements, liability issues, and long-term operational considerations.
11:45am	Break - Networking & Meet the Exhibitors - Tea & Coffee	
12:05pm	Martin Killen (Recotherm) Ventilating Commercial Swimming Pools in the 21st Century	This presentation explores how modern ventilation strategies, innovative technologies and intelligent control systems are shaping the future of commercial pool environments, including an overview of the science of indoor pool air quality and humidity management, ventilation system design and sustainability, and more.
12:25pm	James Lee, MISPE (Hydro Finesse) Biofilms and Their Impact Within Commercial Swimming Pools	Discover how biofilms affect water treatment, filtration, circulation, and infrastructure-highlighting their close relationship with pathogens and the risks they pose in commercial pool environments.
12:45pm	Questions from the Floor	
01:00pm	Lunch - Hot Buffet in the Cafeteria	
02:00pm	James Hadley, MISPE (Pool Tech Services) On-Site Chlorine Generation	How on-site chlorine generation improves safety, reduces chemical handling, ensures reliable disinfection, and supports sustainable, cost-effective water treatment for swimming facilities.
02:20pm	Duncan Ockendon, MISPE (Aquaservice Water Engineering) Certification of UV Systems for the Inactivation of Cryptosporidium	The mechanism of UV disinfection and the significance of UV treatment of Cryptosporidium in swimming pools. PWTAG's recommendations for 3rd party validation of UV systems for inactivation of Cryptosporidium and why they exist. The relevance of the NSF / ANSI-50 standard, which is referred to in Swimming Pool Water.
02:40pm	Lyn Philips, MISPE (Sterling Hydrotech) and Duarte Tito (Pwlltec) Pool Water Recovery System	80% to 90% Recovery of the Backwash water for reuse, saving on water, heating and chemicals.
03:00pm	Questions from the Floor	
03:30pm	Close - Bob Judd, FISPE - ISPE President
